JOB DESCRIPTION: Consultant

Indufor North America provides sustainability strategy, market analysis and international development consulting services to public and private sector clients with a focus on forestry and natural resources management in both the United States and abroad. Indufor North America is the newest company in the Indufor Group, which has a 35-year history of providing substantive, high-quality consulting services to the forest products industry, investment community and development organizations. Our offices in Finland, New Zealand, Australia and the United States work together to generate positive impacts for our clients, the environment and project stakeholders.

We are currently recruiting to fill a Consultant position based in Washington, DC to begin in early 2018.

The Consultant will be responsible for:

1. Performing consulting services for public and private sector clients, including:
 - a. qualitative and quantitative analysis related to natural resources management, governance and policy
 - b. field work in rural areas including data collection, project design, and program evaluation
 - c. succinct report writing and presentation
2. Preparing project proposals, budgets and team work plans
3. Supervision of sub-consultants as required
4. Meeting project deadlines and communicating project progress to supervisors in a timely manner
5. Contributing to the public image of Indufor North America, which could include delivering public presentations and drafting communications materials

Minimum qualifications

1. Undergraduate degree in natural resources management, economics or business with five years' work experience or a relevant graduate degree with three years' work experience
2. Prior experience with research and report drafting on topics related to forestry, natural resource management, climate change, or responsible investment
3. Fluency in English and working knowledge of at least one other language, preferably Spanish or French.
4. Excellent research and writing skills
5. Interest in cultivating company presence through new strategy and business development in North America
6. Work or study experience in developing economies

Preferred characteristics:

1. Previous consulting experience with track-record of rigorous analytical work
2. Previous experience supervising staff or sub-consultants
3. Working knowledge of statistics with statistical software experience
4. Ability to quickly analyze problems and develop frameworks to solve them
5. Flexibility to grow with a new company
6. Excellent interpersonal skills with the ability to establish effective relationships with clients and colleagues around the world

Qualified candidates are encouraged to submit a résumé and one analytical writing sample to admin@indufor-na.com with the subject line "Consultant Candidates 2018".
