

COLLEGE OF THE ENVIRONMENT

At the College of the Environment, our passion is boundless for understanding how the world works and what we can do to sustain it. We delve deep into the workings of the Earth, both in its totality and in each of its dimensions. The College connects educators, researchers, students and citizens, cultivating communities who work with and learn from each other while tackling critical environmental challenges. Public and private funding of more than \$173 million annually supports faculty, staff, and students working on climate, ecology, natural resource management, and marine, earth, and space processes.

ACADEMICS & RESEARCH

Degree-granting units

Aquatic and Fishery Sciences ▪ Atmospheric Sciences ▪ Earth and Space Sciences ▪ Environmental and Forest Sciences ▪ Marine Biology ▪ Marine and Environmental Affairs ▪ Oceanography ▪ Program on the Environment ▪ Quantitative Ecology and Resource Management

Selected field stations and research and outreach centers

Alaska Salmon Program ▪ Center for Sustainable Forestry at Pack Forest ▪ Climate Impacts Group ▪ EarthLab ▪ Friday Harbor Laboratories ▪ Joint Institute for the Study of the Atmosphere and Ocean ▪ Olympic National Resources Center ▪ Pacific Northwest Seismic Network ▪ Program on Climate Change ▪ Quaternary Research Center ▪ Research Vessel Thomas G. Thompson ▪ UW Botanic Gardens ▪ Washington Ocean Acidification Center ▪ Washington Sea Grant

TEACHING & LEARNING

- Students choose from 8 undergraduate and 16 graduate degrees, 10 minors, and 2 certificate programs
- More than 450 course offerings annually
- More than 510 degrees awarded each year
- Capstone projects help students integrate knowledge, concepts and skills acquired during their studies
- 11 UW Distinguished Teaching Award winners

RESEARCH

- We conduct research from Earth's core to the cosmos on all 7 continents and in all 5 oceans
- Our work is carried out through research and outreach centers, labs, field stations, research groups and cooperative programs
- Select areas of research include climate and weather, sustainable forestry, urban ecology, invasive species, earthquakes, volcanoes and tsunamis, salmon fisheries, ecosystem-based management and development of underwater observatories

COLLABORATION & SERVICE

- Faculty members serve as advisors to local, regional, national, and international organizations, including the Pacific and North Pacific Fishery Management Councils, the International Whaling Commission, and the Intergovernmental Panel on Climate Change
- With the Foster School of Business and the College of Engineering, the College of the Environment co-sponsors the annual Environmental Innovation Challenge, where interdisciplinary teams of students develop market-ready solutions to environmental issues
- UW Environment's citizen science programs, K-12 resources and public education programs serve communities and students across the region

FACULTY AND STAFF

- More than 1,000 faculty, researchers and administrative staff work in the College
- Award-winning faculty include:
 - Aldo Leopold Leadership Fellows
 - American Academy of Arts and Sciences Fellows
 - American Association for the Advancement of Science Fellows
 - American Geophysical Union Fellows
 - Ecological Society of America Fellows
 - Fulbright Scholars
 - Heinz Foundation Award in the Environment recipients
 - MacArthur Foundation Fellow
 - National Academy of Sciences members
 - Volvo Environment Prize recipient
 - Washington State Academy of Sciences members
 - White House Champions of Change

FINANCIAL

Grants and Contracts (FY2018)	\$122 million
State Support and Tuition Revenue (FY2018)	\$41 million
Private Support (FY2018)	\$40 million
Endowment Value (06/30/2018)	\$114 million

LEADERSHIP

Lisa J. Graumlich, dean
Dan Brown, director, Environmental and Forest Sciences
Russell Callender, director, Washington Sea Grant
Ken Creager, chair, Earth and Space Sciences
Dale Durran, chair, Atmospheric Sciences
Tim Essington, director, Quantitative Ecology and Resource Management
Gary Handwerk, director, Program on the Environment
Stephanie Harrington, associate dean of administration
John Horne, director, Joint Institute for the Study of the Atmosphere and Ocean
Rick Keil, director, Oceanography
Terrie Klinger, director, Marine and Environmental Affairs
Molly M. McCarthy, managing director of marketing and communications
Kerry Naish, director, Marine Biology
Ben Packard, executive director, EarthLab
Julia Parrish, associate dean of academic affairs
André Punt, director, Aquatic and Fishery Sciences
Terryl Ross, assistant dean of diversity, equity and inclusion
Melinda Seevers, associate dean of advancement
Kathryn Stout, director of finance and administration
Billie Swalla, director, Friday Harbor Laboratories
Robert Wood, associate dean of research

Advisory Board

Maggie Walker, Advisory Board chair
